[Portfolio](#) | [LinkedIn](#) | [Behance](#)

PROFESSIONAL SUMMARY

UI/UX Designer with hands-on experience in designing role-based dashboards, high-fidelity prototypes, and responsive web platforms. Holds a Master's degree in Data Science with a background in Statistics, combining analytical thinking with user-centered design to create intuitive and impactful digital experiences. Skilled in wireframing, prototyping, and interface design using Figma and Adobe XD, with a strong focus on usability, visual hierarchy, and scalable design systems.

EXPERIENCE

UI/UX Designer — Intern | [Least Action Company, Vellore](#) *Feb 2026 – May 2026*

- Collaborated with the product team to design and iterate on user interface components for internal tools, translating business requirements into wireframes and interactive prototypes.
- Conducted usability reviews and incorporated feedback to improve interface clarity across 3+ screens within a 10-week sprint cycle.
- Delivered final designs in Adobe XD, maintaining design consistency across responsive layouts.

PROJECTS

CampusConnect — Academic Platform | [Client Project](#)

- Designed end-to-end UI/UX for a centralized academic management platform serving 3 distinct user roles: students, faculty, and admin.
- Built role-based dashboards with task prioritization and attendance tracking features, applying data analysis to inform interface hierarchy and reduce click depth.
- Created 20+ wireframes and high-fidelity screens in Figma, progressing from low-fi sketches to a fully interactive prototype.
- Outcome: Designed system validated through peer feedback sessions, with improved task completion flow for administrative workflows.

Smart Bankers Institute — [Branding & Website Design](#) | [Internship Project](#)

- Designed the official logo for Smart Bankers Institute, creating a professional visual identity aligned with the institute's educational branding.
- Collaborated with the design and development team to support website UI design and improve visual consistency across key web pages.
- Contributed to layout structuring, typography selection, and interface refinement to enhance usability and user engagement.
- Outcome: Delivered branding assets and UI improvements that strengthened the institute's online presence and maintained a consistent visual experience.

VRV Aircon — Website Redesign | Internship Project

- Audited the existing website for UX friction points and identified 5 key areas affecting user navigation and product clarity.
- Redesigned the information architecture and visual hierarchy, creating wireframes and high-fidelity prototypes in Figma that improved content discoverability.
- Delivered a complete design handoff including component specs, typography system, and responsive layout guidelines.
- Outcome: Client approved redesign after a single revision cycle; redesign reflected a measurably cleaner user journey from landing to product inquiry.

SKILLS

Design: User-Centered Design, Design Thinking, Wireframing, Prototyping, Visual Design, Mobile App Design, Information Architecture

Tools: Figma, Adobe XD, Canva, Notion, Google Docs / Slides

Technical: Basic Data Analysis, Dashboard Design, ERP Interface Design, Responsive Layout

Soft Skills: Creative Problem Solving, Cross-functional Collaboration, Attention to Detail

EDUCATION

MSc Data Science · Periyar University, Salem	2024 – 2026 :7.1
BSc Statistics · Government Arts College, Coimbatore	2020 – 2023 CGPA: 7.2
HSC (Class XII) · Sri Vidhya Mandir HSS, Gurusamipalayam	2018 – 2020 75%
SSLC (Class X) · SRV Boys Matric HSS, Rasipuram	2017 – 2018 80%

CERTIFICATIONS

UI/UX Design Fundamentals · Coursera	2023
Introduction to Figma · Coursera	2023
